Audio

Video

Code

poetry

etc

What is a LLM?
↓
Large Language Models

Large ? ⇒ Pretrained model
a large no. of param

Model ?

Language model?

pretrained model

Lin Reg ← Dataset
3 subset

$y = w_1x_1 + \dots + w_{30}x_{30} + w_0$.
↓ 31 param.

31 param. — pre trained Model

Model!

Data → Algorithm (DL Archi) → Model ⇒ TRAINING

LLM

large amt of Text data (wikipedia) → Transformer → Transformer model (Text) (LLM)

(Testing.)
INFERENCE ⇐ prompt → LLM → Gen Text (output)

Input → Model → output

openAI → GPT ✓

Google - Gemini ✓

Microsoft. phi4 ✓

Google - Gemini

Microsoft - phi4 ✓

Meta - LLama ✓

Alibaba - Qwen3.

Mistral - Mistral

Language Model ?

→ Next word predictor

→ Based on the prompt

→ Model start gen data (Text)

<start>
<SOS> } Come across

prev
<start>
<start>, Hello
How
are
you
?

Import

Google Colab ✓

Gen word predic
Hello
How
are
you
?
<EOS>.

Import

VS Code ✓
